Gerry's seminar, which is scripturally based, invites participants to a greater understanding of the needs of others so that they may pursue their ministry more effectively. We will have the opportunity to reflect upon the attitudes and skills required when we try to understand the needs of those we are trying to help. During the day participants will be invited to see their work as a manifestation of their relationship to God and part of their own faith journey.

Fr Richard's seminar invites participants to a greater understanding of our dependence on our loving God. Through this understanding we become not only cheerful givers but also cheerful receivers.
